

This is a rough drawing to help us get an idea of walk through door, roll up door, and window frame outs. We will get more information from you if you decide to get an official bid from us.

- 1. Please draw in approximately where you want doors and windows. Please include window size and door size.**
- 2. Take a picture of this document on your phone and upload it to the "My Project Form" that we send you a link to.**
